

LUMA TC

ONCE-A-DAY, SCORED TABLETS

LUMA TC's Showcase Ingredient, Theracurmin Sub-Micron Particle Curcumin Demonstrates:

- Over 200 Times Higher Absorption Efficiency Than Other Curcumin Drug Delivery Systems and Curcumin Powder.
- Ensures Higher Blood Levels Sustained for 24 Hours for a True Once-a-Day Dosing Regimen.

In a Double-Blind 3-Way-Crossover Human PK Trial

¹Colloidal Submicron - Particle Curcumin Exhibits High Absorption Efficiency

“Many studies reveal that curcumin has a broad-spectrum of biological and pharmacological activities such as:

- Anti-Inflammatory
- Antioxidant
- Neuroprotective

However, curcumin cannot achieve its optimum therapeutic effectiveness *in vivo* due to its low solubility and poor gastrointestinal absorption and systemic bioavailability.”¹
